° Tool equipped with Oilless Blades

## Warranty

Cooper warrants products and parts sold by it, insofar as they are of its own manufacture, against defects of material and workmanship, under normal use and service in accordance with its written instructions, recommendations, and ratings for installation, operation, maintenance, and service of products, for a period of **ONE YEAR FROM THE DATE OF INITIAL USE, BUT IN NO EVENT SHALL THE WARRANTY EXCEED 24 MONTHS FROM DATE OF DELIVERY TO DISTRIBUTOR.** Proof of Purchase with shipment date must be furnished by the user to validate the warranty. This warranty applies only to products manufactured by Cooper and specifically excludes products manufactured by others. Products not manufactured by Cooper are warranted only to the extent and in the manner warranted to Cooper by the manufacturer and then only to

the extent Cooper is able to enforce such warranty. Cooper's warranty with respect to products manufactured by it is limited to the repair or replacement, as Cooper may elect, of any defective part regarding which the Distributor has given 5 days written notice from the discovery of such defect. Installation and transportation costs are not included. Cooper shall have the option of requiring the return to it of the defective material, transportation prepaid, for inspection. No allowance will be made for repairs without Cooper's approval. **COOPER MAKES NO OTHER WARRANTY OF ANY KIND WHATSOEVER, EXPRESSED OR IMPLIED, AND HEREBY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.**

## Lubrication Products

CooperTools' products are classified as non-hazardous manufactured items, defined in the OSHA 1910.1200 Hazard Communication Standard as "Articles". These products, under conditions of normal use, do not release or cause exposure to a hazardous chemical.

Under normal conditions of use, lubrication products sold separately for or used within these tools should not cause an exposure hazard. Refer to the Material Safety Data Sheet (M.S.D.S.) for Safety and Disposal Information. M.S.D.S. sheets are available upon request from CooperTools or on our website at [www.coopertools.com](http://www.coopertools.com).

Cooper is also aware of, and complies with, the provisions of section 611 amendments to the Clean Air Act of 1990. No

ozone depleting chemicals have been used in the manufacture of our products.

If you resell or distribute these products, you have the responsibility for ensuring that the Material Safety Data Sheets are provided to the purchaser.

Proper lubrication is essential to the economical operation of pneumatic and electric tools. CooperTools products perform better and their life is extended by using the recommended lubricants. All lubricants that are listed in the accessory section of this catalog have undergone extensive testing and are recommended for use with CooperTools products.

## Safe Work Practices Symbols

### WARNING

The signal word "WARNING" indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury; and, identifies safe work practices in this operating instruction. Observe these notes and proceed with special care in these cases. Pass all safety instructions on to other users. In addition to these instructions, the general local safety and accident prevention rules must be observed.

### CAUTION

The signal word "CAUTION" identifies all situations meriting special attention to ensure that guidelines, rules, hints and the correct work procedures are observed; and, to prevent damage to and destruction of the machine and/or parts.

## Operational Instructions

- These CooperTools portable and mountable tools are air powered. ALWAYS USE CAUTION WHEN USING POWER TOOLS FOR PERSONAL SAFETY.
- General Industry Safety & Health Regulations, part 1910, OSHA 2206, available from Superintendent of Documents; Government Printing Office; Washington, DC 20402

- Safety Code for Portable Air Tools – ANSI B186.1 available from American National Standards Institute, Inc.; 1430 Broadway; New York, NY 10018
- State and local regulations.
- Use only genuine CooperTools replacements parts.

It is the user's responsibility to refer and comply with ANSI B7.1

WARNING: Face & eye protection must be worn while operating power tools, per ANSI B186.1. Cutting tool maximum speed rating must be equal or exceed speed of air tool @ 90 psi (620 kPa). Follow cutting tool manufacturer's mounting & operating instructions. Tools must be equipped with lock-off lever to be CE compliant.

**WARNING**

Before mounting any abrasive wheel, buffing wheel, wire brush, saw blade, flap wheel or other product, after all tool repairs and whenever a tool is issued for use, the RPM shall be checked with a tachometer to insure that its actual speed does not exceed rated speed. GOVERNED TOOLS IN USE ON THE JOB SHALL BE CHECKED AT LEAST ONCE EVERY TWENTY HOURS OF USE, OR ONCE WEEKLY, WHICHEVER IS MORE FREQUENT. Tachometers must be checked and calibrated on a regular basis according to the manufacturer's recommendations.

**WARNING**

Select proper guards for the application and mount securely and properly. Always mount guards so that abrasive debris, sparks, etc., are deflected away from the operator.

Safety guards shall be in good condition. Any guard which has been subjected to a wheel failure shall be discarded and replaced.

**WARNING**

Tools shall be used for purposes intended in their design. Refer to product catalog.

Modification of the tool, or use of non specified accessories, may result in serious injury.

**WARNING**

Speed rating of abrasive wheel, buffing wheel, wire brush, saw blade, flap wheel, or other products used, must equal or exceed speed rating of tool.

Exceeding the speed of accessories may cause failure of these products and serious operator injury.

Wheels must clearly show the rated speed for its use, or must be discarded and not used.

**WARNING**

Test and operate tools at 90 PSIG (620 kPa/6.2 bar) maximum pressure (measured at the tool while the tool is running) unless tool is marked otherwise. Use recommended air line filters – regulators – lubricators.

Always remove the air supply hose before working on the tool or changing accessories

**WARNING**

Wear impact resistant goggles or face shield at all times the tool is in operation. Other protective clothing shall be worn, if necessary, for spark protection deflection. SEE REGULATIONS.

**WARNING**

Immediately shut off the tool if unusual sound or vibration is detected. Remove and inspect the wheel and check the tool speed (RPM). Use of over-speeding grinder or unbalanced wheels may result in serious injury.

**WARNING**

High sound levels can cause permanent hearing loss. use hearing protection as recommended by your employer or OSHA. See 29CFR Part 1910.

**WARNING**

Each type of wheel, wire brush, saw blade, flap wheel and other product, has specific mounting procedures and regulations concerning spindles, flanges, blotters, collets, etc., which shall be used. Wheels must mount on tool's spindle freely but not loosely. Spindle nuts must be tightened so as not to crack the wheel with too much force. Nuts must have all thread engagement.

**WARNING**

Employ a safety program to provide inspection and maintenance of all phases of tool operation and air supply equipment in accordance with "Safety Code for Portable Air Tools," ANSI B186.1.

Make sure that all repairs are by trained personnel only and that these safety instructions are understood by the user.

**WARNING**

Regularly inspect all wheels, etc., and discard cracked, chipped or otherwise damaged units. Redress out-of-balance wheels. SEE REGULATIONS.

**WARNING**

When mounting any grinding wheel, the tool shall be run at operating speed with the safety guard in place, in a protected area such as under a work bench, for at least one minute. A damaged wheel should fail within that time.

Any suspect wheel of unknown origin shall not be used and must be properly disposed.

WARNING: Face & eye protection must be worn while operating power tools, per ANSI B186.1. Cutting tool maximum speed rating must be equal or exceed speed of air tool @ 90 psi (620 kPa). Follow cutting tool manufacturer's mounting & operating instructions. Tools must be equipped with lock-off lever to be CE compliant.

It is the user's responsibility to refer and comply with ANSI B7.1

**Dotco & Cleco...tools that work with operators...not against them.**

**Performance**

Known for their durability, dependability and versatility, the Dotco & Cleco brands are viewed as the premier lines of material removal tools in the industrial marketplace. This is made possible by sound design and manufacturing techniques, producing tools that are small, comfortable and lightweight, yet can withstand tough treatment.

**Ergonomics**

With any repetitive task, workers can be subjected to discomfort and strain. Dotco & Cleco tools are designed so their form follows their function. Simply, tools that are more comfortable for the operator to use...tools that work with operators and not against them...including elastomer housings, low vibration, and low noise.

**Versatility**

By using only a few motor types, a diverse line of Dotco products have been developed to handle a wide range of applications. Dotco tools also have a high interchangeability of parts making maintenance easier and more affordable.

**Dotco & Cleco Quality**

Quality Dotco & Cleco power tools have been manufactured for 50 years. Understandably, we are proud of our tools. Proud that they have become the industry standard.

**ISO 9001 Certified**

When we say our tools are built well, we really mean it. CooperTools manufacturing processes are ISO 9001 certified...that means the Dotco brand is manufactured to the highest standards.

**Rapid Select means fast delivery**

**RAPID SELECT** Models indicated with the **Rapid Select** icon represent our most popular tools, and are available for fast delivery on limited quantities.

**Oilless Blades**

Some operations require clean operating tools. That is why many Dotco tools can be run with oilless blades. Just another way we help you to make the best products possible. 

**Low noise, low vibration**

Noise and vibration of power tools in manufacturing is an important issue. Dotco & Cleco tools have been designed to operate as quietly as possible, while providing substantial power. Vibration has been kept to a minimum by using precision parts and high quality bearings.

**Precision parts**

It's simple, precision parts let operators manufacture precision products. Whether it is a spindle, a chuck, a motor or an angle head, our parts are manufactured from the finest materials available and are machined to the highest tolerances. It is understandable why we are proud of the .0005" runout on our collet model tools.

**Parts interchangeability**

Maintenance of tools can be time consuming...and expensive. That is why Dotco products have been designed with high parts interchangeability. With fewer parts required to repair our tools, less inventory of parts is required and tools are easier to repair.

**New Ergonomic Safety Lever**

Beginning July 2004, all Dotco "S" model tools will be shipped with our new comfort grip safety lever. 

## Performance, Versatility & Quality

When it comes to fine finishing applications such as die grinding or de-burring, no tools are better suited for the job than Dotco® grinders. Dotco's reputation for durability, dependability and versatility is among the highest for fine finishing applications. This is the result of years of continuous improvements in engineering design and manufacturing processes.

Dotco grinders are designed with the operator in mind. They are small, lightweight and comfortable to use, without sacrificing durability. Plus, they incorporate elastomer coatings, and perfectly balanced moving parts to keep vibration to a minimum. This optimal combination of tool characteristics allows the operator to focus doing the best job possible, in the least amount of time.

## Tough tools for tough jobs

Cleco® and Buckeye® grinders meet the demanding requirements of industries including shipbuilding, pipe fabricating, transportation equipment manufacturing, and welding applications. Since these types of applications typically require a high material removal rate, Cleco and Buckeye grinders incorporate high horsepower/high RPM motors.

To achieve maximum durability, Cleco and Buckeye grinders use top quality precision components, and motor assemblies are protected by either aluminum or steel housings.

## Grinder Abrasives Guide

### Precision Grinders, Carbide Bur and Mounted Wheel Grinders

Used in finishing applications that require a high degree of durability.

### Cone and Plug Wheels

Used for general purpose grinding work on mild steel, stainless steel, metal alloys, and cast steel. Applications include:

- Grinding and smoothing fillets, corners
- Mild bending contours
- Beveling workpiece edges prior to welding
- General grinding in confined areas
- Internal grinding

### Type 1 Wheels

Used on portable horizontal shaft tools.

Applications Include:

- Notch free grinding
- Pre-weld cleaning
- Smoothing out weld seams
- Grinding concrete or masonry products
- Removing seam lines from castings

### Type 1 Cut-Off Wheels

Applications include cutting carbon and stainless steel, ferrous metals, and cast iron

### Type 6 & 11 Cup Wheels

Used on right angle or vertical shaft tools.

- Type 6 – Straight Cup Wheels
- Type 11 – Flared Cup Wheels

### Type 27/28 Depressed Center Wheels

Type 27 wheels are used at an angle to the workpiece between 30° and 45°.

These wheels do not "flat grind."

Type 28 wheels are saucer shaped wheels, which are contoured to provide a correct "built-in" grinding angle. Consequently, Type 28 wheels may be used for flat contact on the workpiece.

# DOTCO® Cleco®

50,000 – 100,000 RPM

0.06 – 0.2 hp (0.044 – 0.015 kW)

- Variety of configurations to meet all your application needs
- Ideal for precision deburring and metal removal
- Turbine, governed and non-governed models available
- 12-03 right angle gearless model to reduce maintenance and downtime

**WARNING:** Maximum extension on 10-95 Series: 1/4" bur is 1-1/2" and 1/8" bur is 3/4"  
**WARNING:** Do not use grinding wheels or non-standard burs: failure to comply may shatter abrasive and cause serious injury.

### Grinder Kits

#### 220G-600-C2-K

Kit includes grinder, hose, collet, collet wrench, cylindrical plain burr (413680), cylindrical radius end burr (413681), cone & taper burr (413682), and tree point burr (413683), carrying case.

14G-830-KIT

#### 14G-830

Kit includes grinder, hose, collet, collet wrench, two collet wrenches – 1006626, three grinding wheels – 1005327, 1005338, 1005344, dressing stone – 1004908, hose assembly – 1021393, carrying case – 1021743, filter-lubricator – 1020888

### 15Z Series Air Marking Pen

- 0.06 hp (0.044 kW) In-line Piston Motor
- Sliding sleeve throttle
- Carbide tipped stylus
- Great for marking materials ranging from aluminum to titanium
- Weights only 4 oz.

15Z-710

Model Number	Speed		Weight		Length		Diameter	
	spm	rpm	lbs.	kgs	in.	mm	in.	mm
15Z-710	20,000		.25	0.1	5.5	140	0.6	15

**General** Air Inlet: 1/8" NPT – Use 3/16" (4.7mm) I.D. hose  
 All tools performance rated @ 90psi (620 kPa) air pressure.

**Standard Equipment** Carbide tipped stylus

**Extra Equipment** Replacement carbide tipped stylus - 1018081

**Air Marking Pen Kit 15Z-720** 15Z-710 Air Marking Pen, five (5) foot air hose assembly, 3/16" I.D. with 1/8" NPT fittings, two (2) 1/2" wrenches, carrying case

# Inline Grinders

For Carbide Burrs, Mounted Points, Mounted Wheels

**DOTCO® Cleco®**

12,000 – 40,000 RPM

0.2 – 0.9 hp (0.15 – 0.67 kW)

- Great for die and mold work, deburring
- Aluminum, composite or rugged steel housings
- Complete selection of rpm speeds available
- Front, side, and rear exhaust models available

**New! Ergonomic Safety Lever**

Beginning July 2004, all Dotco "S" tools will be shipped with our new comfort grip safety lever.

▲ Button throttle available but not Rapid Select

\*Governor controlled speeds

• Oilless blades

‡Mounted wheel capacity depends on wheel diameter, thickness and overhang. Consult wheel manufacturer for speed recommendations.

### GENERAL:

All tools performance rated @ 90psi (620 kPa) air pressure.

Minimum Hose I.D. -

10-11, 12-11 Series: 1/4" (4.8mm)

12-26, 136 Series: 5/16" (7.9mm)

15 (governed) Series: 3/8" (9.5mm)

### STANDARD EQUIPMENT:

Applicable collet, collet wrenches

### EXTRA EQUIPMENT:

See pages 24-27

Overhose (rear exhaust): See page 63

### MULTIPLE EXTENSIONS FOR 12-26 SERIES:

Each extension changes the tool length and weight by:

12-26 series = 7.25" (184mm) and 1.2 lbs. (0.54 kg);

The length and weight in the table are for 2A models

1A = One extension

2A = Two extension

3A = Three extensions, etc.

All multiple extensions are not available in all speeds

Refer to Page 7 for description of Rapid Select.

Housing Guide: A=Aluminum, C=Composite, S=Steel

\* Over spindle

• Oilless blades

† Mounted wheel capacity depends on wheel diameter, thickness and overhang. Consult wheel manufacturer for speed recommendations.

**GENERAL:**

All tools performance rated @ 90psi (620 kPa) air pressure.

Minimum Hose I.D.– 12-12, 10-12, 12-13, 12-23, 116 Series: 1/4" (4.8mm)

12-22, 12-27, 136 Series: 5/16" (7.9mm)

**STANDARD EQUIPMENT:**

Applicable collet, collet wrenches

**EXTRA EQUIPMENT:**

For lock-off safety lever, substitute "S" for "L" in model number.

See pages 24–27

Overhose (rear exhaust): See page 63

Refer to Page 7 for description of Rapid Select.

# Sanders, Buffers & Polishers Introduction

## DOTCO®

Dotco® sanders, buffers and polishers are available in a variety of styles and power ratings to provide flexibility in choosing the best tool for the job. Disc sanding and polishing, wire brushes, buffing wheels, abrasive sheets, woven or non-woven belts. No matter the application, Dotco has a quality tool solution.

Motor ratings for sanders range from 0.6 – 1.6HP. All sanders feature composite, aluminum or steel housings to protect the internal parts as much as possible.

### Dotco 12-18 Series random orbital & orbital sanders

The Dotco 12-18 Series random orbital and orbital sanders have a low profile design for better sanding control which improves finish quality. They are lightweight with low vibration to reduce operator fatigue and improve production levels.

You can choose between models with either 3/16" (black lever) or 3/32" (chrome lever) random orbital pattern to best fit your application. All models are shipped with 3 interchangeable grips to comfortably fit any hand in your plant. Vacuum models are extremely efficient and are equipped with super vac for increased efficiency.

### Dotco 12-23 Series belt sanders

The Dotco 12-23 Series belt sanders can grind corners, enter grooves, debur, strap polish or enter channels. The unique belt cover makes belt changes quick and easy. You can use non-woven nylon or coated abrasive belts on a variety of surfaces.

The unique sanding attachment pivots 360 degrees to allow user flexibility in reaching confined areas. The belt cover snaps on/off easily with no special tools needed allowing for quick belt changes. The arm itself is interchangeable to best suit a variety of applications.

**3 interchangeable grips to reduce fatigue and increase user comfort shipped standard with every sander**

**Durable high carbon steel lever won't break off**

**Sintered bronze one piece muffer does an excellent job of muffling noise and does not clog as easily as competitive models. When needed, makes servicing tool easy.**

**Hardened alloy steel cylinder for power, speed and longer cylinder life**

**Floating rotor design reduces internal friction for a higher power transfer, simplified maintenance and longer tool life**

**Hardened alloy steel shaft balancer for durability and long wear**

**Underside variable speed control allows user to easily adjust speed for different applications**

A wide range of industrial-quality PSA and hook and loop pads available in 3", 5" and 6" sizes

# Right Angle Sanders

For Disc Sanding & Polishing

## DOTCO®

1,250 – 30,000 RPM

0.3 – 1.7 hp (0.22 – 1.27 kW)

- Suitable for a wide range of finishing and sanding applications
- Geared or gearless models
- Front, side, and rear exhaust models
- Composite or aluminum housing
- Choice governed or non-governed models

### New! Ergonomic Safety Lever

Beginning July 2004, all Dotco "S" tools will be shipped with our new comfort grip safety lever.

# Belt Sanders

For Woven & Non-Woven Sanding Belts

## DOTCO®

12,000 – 20,000 RPM

0.3 – 0.5 hp (0.22 – 0.38 kW)

- Grind, debur, strap polish, blend
- Choice of geared or gearless
- Ergonomic housing reduces cold air transmission to operator
- 12-23 model accepts interchangeable arms

### New! Ergonomic Safety Lever

Beginning July 2004, all Dotco "S" tools will be shipped with our new comfort grip safety lever.

Housing Guide: A=Aluminum, C=Composite, S=Steel

- Oilless blades

#### GENERAL:

All tools performance rated @ 90psi (620 kPa) air pressure.  
Minimum Hose I.D. 1/4" (6.4mm)

#### STANDARD EQUIPMENT:

12-12, 12-13 series: No.80 and No.120 grit sanding belt or one medium grit non-woven belt; applicable wrenches, grease gun, gear lube  
12-23 series: Tool and contact arm, adjustment wrench.

#### EXTRA EQUIPMENT:

For lock-off safety lever, substitute "S" for "L" in model number.  
Overhose (rear exhaust): See pg. 63  
Attachments: See pg. 40

#### OPTIONAL EQUIPMENT:

See pg. 38 for additional belts.

#### \*OPTIONAL TERMINATIONS FOR 12-12 & 12-13 SERIES (All models may not be available):

-32Bx 1/4"-28 Internal Thread; -36Bx 1/4" collet

Refer to Page 7 for description of Rapid Select.

#### Dotco 12L2384-K1 Kit

When you order the Dotco 12L2384-K1 kit you get the tool and all three interchangeable arms, belts and wrenches. You'll be ready for just about any finishing project using the Dotco 12L2384-K1 kit.

**DOBCO**  
EQUIPMENT LTD

#### Kit includes the following:

- Tool with 3/4" wide straight arm (1)
- Additional Arms (2)
  - 1 - 1/2" wide straight arm
  - 1 - offset arm
- 1/4" x 18" Aluminum Oxide Belts (3)
  - 1 - 60 grit
  - 1 - 80 grit
  - 1 - 120 grit
- 1/2" x 18" Aluminum Oxide Belts (3)
  - 1 - 60 grit
  - 1 - 80 grit
  - 1 - 120 grit
- 3/4" x 18" Aluminum Oxide Belts (2)
  - 1 - 60 grit
  - 1 - 80 grit
- 3/4" x 18" Non-Woven Belt (1) Medium
- Wrenches & Misc. Items
  - 1 - 3/4" open end wrench
  - 1 - 9/16" open end wrench
  - 1 - 9/64" hex wrench
  - 1 - 3/16" hex wrench
  - 1 - 1/4" collet
  - 1 - collet cap
  - 1 - chuck body
- Carrying Case w/Foam Inserts (1)

# Buffers/Polishers

For Wire Brushes, Buffing Wheels and Abrasive Sheets

## DOTCO®

2,200 – 6,200 RPM

0.3 – 1.7 hp (0.22 – 1.27 kW)

- Many models to choose from to meet your application needs
- Front, side, and rear exhaust

**New! Ergonomic Safety Lever**

Beginning July 2004, all Dotco "S" tools will be shipped with our new comfort grip safety lever.

## Low Profile Backup Pads for Random Orbital Sanders

A thinner, harder pad generally recommended for aggressive sanding and leveling of flat surfaces.

Diameter	Thickness	PSA Pads		Hook & Loop Pads	
		Non-Vacuum	Vacuum	Non-Vacuum	Vacuum
3 1/2"	3/8"	543025	543025	543026	543026
5"	3/8"	543017	543018	543019	543020
6"	3/8"	543021	543022	543023	543024

## Tapered Edge Backup Pads for Random Orbital Sanders

A thicker, softer pad generally recommended for contour sanding and feather edging.

Diameter	Thickness	PSA Pads
		Non-Vacuum
5"	3/4"	543041
6"	3/4"	543042

## Backup Pads for Orbital Sanders

PSA adhesion to tool eliminates the need for any tools when changing pads. Pad remains flat throughout full orbit at any speed.

Diameter	Thickness	PSA Pads		Hook & Loop Pads	
		Non-Vacuum	Vacuum	Non-Vacuum	Vacuum
3-2/3"x7"	3/8"	543011	-	-	543014

## Belt Sander Attachments

Dotco 12-12 and 12-13 series.

300 Series Collet	1/4"-28 Int. Thread	Sanding Belt Size		Sanding Area	
-36 Termination	-32 Termination	in.	mm	in.	mm

### Non-woven Attachments (used with 12,000 rpm 12-12 series)

120	14-1593	14-1352	14-1585	14-1372		14-2322	14-2318	
150		14-1355						
180	14-1596	14-1358	14-1588	14-1378	14-1648			
240		14-1360						
320		14-1362						

## Sanding Belts – Non-woven

Minimum order: 10 of any one belt.

Grit Size	Part Number	
	1/4" x 18	3/4" x 18
Extra Fine	14-1728	
Fine	14-1729	
Medium	14-1730	14-2327
Coarse	14-1731	

## Spiralcool™ Backing Pads

For Dotco sanders with 5/8"-11 threaded spindles. Pad contour develops draft action to cool disc and avoid excessive pick-up.

Flexibility	Part Number – Pad Diameter (Max. rated RPM)				
	4" 12,000 rpm	4 1/2" 11,000 rpm	5" 10,000 rpm	7" 7,000 rpm	9" 6,000 rpm
Flexible	14-2197	14-2255	14-2115	14-2529	14-2202
Medium	14-2198	14-2256	14-2116	14-2200	14-2203
Rigid	14-2199	14-2257	14-2117	14-2201	

## Save-A-Disc Pads

For Dotco sanders with 5/8"-11 threaded spindles. Ribs on the backing plate cause a flexing action which throws off accumulation.

Diameter	Part Number				
	Maximum rpm	Assembly	Pad Only	Plate Only	Nut Only
5"	7,500	14-2515	14-2521	14-2522	14-2525
7"	7,500	14-2517	14-2521	14-2523	14-2525
9"	7,500	14-2519	14-2521		14-2525

## PSA Disc Holders

### Collet Chuck:

Chuck the PSA disc holder shank directly into the appropriate collet (1/8" or 1/4").

### Threaded Spindle:

Remove the threaded shank from the PSA disc holder. Referring to the spindle adapter chart, select the correct spindle and thread it into the PSA holder.

Part Number	Disc Holder Diameter	Shank Assembly	PSA Disc Holder Thread
14-1146	1/2"	1/8"	5-40 Female
14-1105	1/2"	1/4"	5-40 Female
14-1147	3/4"	1/8"	5-40 Female
14-1107	3/4"	1/4"	5-40 Female
14-1170	1"	1/8"	5-40 Female
14-1110	1"	1/4"	5-40 Female
14-1111	1-1/2"	1/4"	1/4"-20 Female
14-1112	2"	1/4"	1/4"-20 Female
14-1113	3"	1/4"	1/4"-20 Female
14-1114	4"	1/4"	1/4"-20 Female

## Sanding Pad Nut

For use with Dotco sanders with 5/8"-11 threaded spindles.

Part Number	Tool Series
14-2118	5/8"-11 threaded spindle

## Spanner Wrench

For use with 14-2118 Sanding Nut Pad.

Part Number	Tool Series
14-2319	5/8"-11 threaded spindle

## Sanding Disc Cutter

An adjustment scale allows a 9" maximum diameter sanding disc to be cut down to 3" or 4" diameter. The double bevel cutting edge assures a round cut without a loose edge or raveling.

Part Number	Description
14-2535	Disc Cutter
<b>Replacement Blades</b>	
14-2590	Upper
14-2591	Lower

## Mini Chucks

For use with Dotco 12-12 series.

To adapt right angle threaded spindle sanders for drilling, disc sanding with PSA holders, and light grinding.

Shank Size	Part Number	
	Assembly	Collet
1/8"	14-1102*	14-0158**
1/4"	14-1104*	14-0168***
6 mm	14-1094	14-0170***

## Spindle Adapters

For use with PSA Disc holders.

Part Number	Adapter Description		
	Thread (for Tool Spindle)	Thread (for PSA Disc Holder)	Maximum Disc Diameter
14-1142	1/4"-28 Male	5 -40 Male	1"
14-1144	1/4"-28 Male	1/4"-20 Male	4"
14-2903	5/8"-11 Male	5/16"-24 Male	4"
14-1212	5/8"-11 Male	1/4"-20 Male	4"
14-1211	5/8"-11 Female	3/8"-24 Male	4"

\* NOTE: For 1/4"-28 internal thread

\*\* NOTE: For 5/16"-24 internal thread – 1/8" collet

\*\*\* NOTE: For 3/8"-24 internal thread – 1/4" collet

## DOTCO®

Dotco® drills are used daily in applications ranging from aerospace to oil fields and refineries. Three styles are available - pistol grip, straight handle, and right angle models. Drills in this section range from 0.3 – 1.5HP. Plus, dead handles are available for several models.

### Parts interchangeability

Maintenance of tools can be time consuming and expensive. That is why our products have been designed with high parts interchangeability. With fewer parts required to repair our tools, less inventory of parts is required and tools are easier to repair.

### Precision parts

It's simple, precision parts let operators manufacture precision products. Whether it is a spindle, a chuck, a motor or an angle head, our parts are manufactured from the finest materials available and are machined to the highest tolerances. It is understandable why we are proud of the .0005" runout on our collet model tools.

### Extraordinary new drills, inspired by an extraordinary device. The human hand.

The familiar gray Dotco drill has long been the industry workhorse for the high-volume, high-repetition, high-precision demands of today's assembly line.

The new Dotco drills have been dramatically redesigned ergonomically to deliver increased comfort and productivity, while assuring decreased operator fatigue, potential for injury and downtime on the line.

And we not only changed the way Dotco drills look. We also changed the way they perform.

### The miracle of technology and human engineering

Technology has allowed us to make these extraordinary improvements. Rapid prototypes are now available through our proprietary design-engineering platform, so we can do modeling in real time and put prototypes in the

hands of operators to get immediate feedback on ergonomic and performance criteria.

The handles of the new 14 Series are more oval, for example, because that's what fits the human hand better and ensures less slippage. Our human engineering research also led to the addition of a new rubber grip for better temperature control, because compressed air exhaust in a metal housing makes the tool cold to the hand and reduces speed and efficiency.

Moreover, the ideal is to have the line of action straight down the barrel so that the operator is pushing forward on the tool with the greatest control, the greatest in-line force, the least angular force and the least fatigue to the wrist. That's why we designed the new drills with ergonomically-critical finger and thumb guides. That's also why we added a finger lip under the trigger, which keeps the other fingers from interfering with the trigger action.

The trigger, by the way, is practically forceless. It requires only 4 ounces of pressure to engage the trigger. And the trigger mechanism is designed with a pressurized tip-valve, so that once you overcome the initial resistance, you're off to the races.

*Design features double ball bearings for the spindle, pre-loaded for longer bearing life and more accurate spindle control. Vibration and runout are reduced.*

*Time-proven motor and gear design is well balanced to reduce vibration and extend tool life.*

**DOTCO®**

500 – 28,500 RPM  
0.3 – 0.4 hp (0.22 – 0.30 kW)

- Wide selection of tools to match your application
- Rear exhaust
- Select geared models available

**New! Ergonomic Safety Lever**

Beginning July 2004, all Dotco "S" tools will be shipped with our new comfort grip safety lever.

Model Number	Free Speed rpm	Drill Diameter Capacity	Type Housing	Weight		Length		Head Ht.		Chuck Size	Air Inlet Size

**GENERAL:**  
Air Inlet: 3/8" NPTF  
Minimum Hose Size: 3/8"  
Spindle Thread: 1/2"-20  
Spindle Offset: Pistol Grip: 31/32"

**STANDARD EQUIPMENT:**  
Operating instructions and service manual  
Dead handles on all models except 15DP-14B  
3-Jaw Chuck and Key

Refer to page 7 for description of Rapid Select.

**\*CAPACITY CAUTION NOTE:**  
Pistol Grip 15 Series Drills must be equipped with support handle (881580) when used with chucks larger than 3/8" capacity.  
†Theoretical stall torque based on gear reduction. These tools are intended for slow speed applications and not high torque applications. High maintenance should be expected if tools are operated in their upper torque range.

**CAUTION:**  
High reaction torque may be experienced with any drill at breakthrough. Caution must be exercised when using any cutting tool because of the possibility of the cutting tool bending or breaking. Cutting tool maximum speed rating must equal or exceed speed of tool. Eye protection must be worn while operating power tools.

Model Number	Speeds rpm		Chuck Capacity*		Length		Weight	
	Free	Governed	in.	mm	in.	mm	lb.	kg

Housing Guide: A=Aluminum, C=Composite, S=Steel  
\* Internal Thread

**GENERAL:**

Minimum Hose I.D.– 15LF, 15LS, 15LN Series: 1/4" (6.4mm)  
All Tools performance rated @ 90psi (620 kPa) air pressure.

**STANDARD EQUIPMENT:**

Light Duty Tools: 600 Series Mini Angle Head with 1/4"-28 internal thread  
Heavy Duty Tools: 500 Series Heavy Duty Angle Head with 1/4"-28 internal thread

**EXTRA EQUIPMENT:**

For lock-off safety lever, substitute "S" for "L" in model number.  
Overhose (rear exhaust): See page 63  
Collets for 9/32"-40 terminations: See page 48

**OPTIONAL CHUCK TERMINATIONS:**

NOTE: The Light Duty model numbers shown in the above table are equipped with the 600 series (-62) angle head with 1/4"-28 internal thread. The Heavy Duty model numbers are equipped with the 500 series (-52) angle head with 1/4"-28 internal thread. To order other angle head configurations, the proper termination code from the charts on page 49 must be specified, in place of the standard -62 or -52 termination, when ordering. All models not available with all angle heads.

Refer to Page 7 for description of Rapid Select.

**DOBCO**  
EQUIPMENT LTD

**Mini Chucks**

For use with DOTCO 12-12 series. To adapt right angle threaded spindle sanders for drilling, disc sanding with PSA holders, and light grinding.

Router Guides

For use on Dotco 12-10, 12-20, 12-20, 12-25 and 12-40 series.

OFFSET 1/2" ("B" DIMENSION MINUS ROUTER BIT DIA.)

The minimum router bit length (OAL) to be used is determined by the formula:  
 OAL = 1-13/16"+C+P (series 12-10);  
 OAL = 2"+C+P (series 12-20 & 12-25). "C" is the "C" dimension of the router guide and "P" is the desired protrusion of the router bit.

**Important:** Insert bit into collet as far as possible, then pull out 1/16" and tighten collet.

**In An Emergency,** if it is necessary to pull out the bit more than 1/4", be sure to insert a short length of blank shank (not to exceed 5/8" long) in the bottom of the collet before inserting the bit.

14-4021	9/16	5/8	3/16	1/2"

Rivet Trimmer Attachment

For use on Dotco 12-12 series front or rear exhaust collet models. Trims "pop" or "blind" rivets up to 3/16" diameter, also suitable for shaving small welds. Micrometer adjustment controls height of cut to .001". Runner pads minimize scratching of the work surface.

Part No.	Diameter	Shank	Length	Description	Recommended Use
<b>Trimmer</b>					
14-1723					
<b>Cutters</b>

<b>12-20F Series – 0.6hp (0.45 kW)</b>							
12L2062-96	18	-	6	1.1	0.5	8.3	211

**REPLACEMENT PARTS AND ACCESSORIES**  
Extra Cost: 14-1752: Punch  
14-1751: Die

**EXTRA EQUIPMENT:**  
For lock-off safety lever, substitute "S" for "L" in model number.  
Overhose: See page 63

# DOTCO®

## Lint Pickers

■ Front or Rear Exhaust

Model Number		Free Speed rpm	Weight*		Length		Collet Size
Front Exhaust	Rear Exhaust		ozs.	gr	in.	mm	
<b>12-10 Series – 0.3 hp (0.22 kW) – 300 Series Collet</b>							
12L1010-36		20,000	12	269	4.8	122	1/4"
12L1031-36*		20,000	13	340	5.5	140	1/4"

**GENERAL:**

Air Inlet: Front Exhaust: 1/4" NPT  
Rear Exhaust: 1/8" NPT - Use 1/4" (6.4mm) I.D. Hose  
All tools performance rated @ 90psi (620 kPa) air pressure

**STANDARD EQUIPMENT:** Applicable collet, collet wrenches, 6"(152mm) Picker Rod 14-2181,

oilless blades(\*)

**EXTRA EQUIPMENT:** For lock-off safety lever, substitute "S" for "L" in model number.  
Collets: See page 26  
Overhose (rear exhaust): See page 63  
9" (229mm) Picker Rod 14-2182

\*Refer to Page 7 for description of Rapid Select.

# DOTCO®

## Hole Grinders

- High-speed drilling/grinding hardened alloys
- Fine cutting of thin walls sections
- Materials too fragile for conventional methods
- Use on lathes, grinders, mills or drill presses for straightline machining
- Insert in a boring head for offset jig grinding
- Mount permanently for special applications

Model Number	Shank Dia.	Collet Chuck	Speed rpm	Weight		Approximate Dimensions (inches)							
				lbs.	kgs	"A"	"B"	"C"	"D"	"E"	"F"	"G"	"H"
<b>11-20 Series – 0.6 hp (0.45 kW)</b>													
11Q2000	1/2"	200	25,000	3	1.4	1.3	6.3	1.3	0.8	0.8	1.0	0.8	-

**GENERAL:**

Air Inlet: 1/4" NPT - Use 5/16" (7.9mm) I.D. Hose  
Air Consumption: 11-10 Series – 12 cfm (0.34 m³/min)  
11-20 Series – 20 cfm (0.57 m³/min)

All tools performance rated @ 90psi (620 kPa) air pressure

**STANDARD EQUIPMENT:**

11-10 series: 1/4" (308) collet, collet wrenches, push-pull valve, coupling, and nipple  
11-20 series: 1/4" (208) collet, collet wrenches, push-pull valve, coupling, and nipple

Airline Filter and Lubricator

Part Number	Description	NPT in.	Air Flow		Max. Pressure	
			SCFM	m <sup>3</sup> /min	psig	bar
45-0211	Filter w/cartridge*	1/4	17	8.0	100	6.9
45-0212	Filter cartridge	-	-	-	-	-
45-0201	Lubricator**	1/4	22	10	100	6.9
45-0301	Lubricator**	3/8	22	10	100	6.9

GENERAL: Use where inconvenient for standard filter or lubricator.

\* NOTE: Filter will not remove water.

\*\* NOTE: One ounce reservoir good for an average eight hour shift.

Air Hoses

Part Number	Hose I.D.		Fittings (NPT)		Length	
	in.	mm	in.	mm	ft.	m
A110026	3/16	4.7	1/8	3/8-24*	6.0	1.8
A139856	3/16	4.7	1/8	1/8	6.0	1.8
45-1307	3/16	4.7	1/8	1/4	7.0	2.1
45-1408	1/4	6.4	1/4	1/4	8.0	2.4
45-1409	1/4	6.4	1/8	1/4	8.0	2.4
45-1508	5/16	7.9	1/4	1/4	8.0	2.4
45-1610	3/8	9.5	3/8	3/8	10	3.0
45-1810	1/2	12.7	3/8	1/2	10	3.0
45-1812	1/2	12.7	1/2	1/2	12	3.7
45-1825	1/2	12.7	1/2	1/2	25	7.6

GENERAL: 3/16" & 1/4" hoses have braided covers, all others have neoprene covers.

\* NOTE: 3/8"-24 is a straight thread

Activewivel

Part No.	NPT in.	Air Flow		Max. Pressure		Weight	
		SCFM	m <sup>3</sup> /min	psig	bar	lbs.	kg
SW-102	1/4	25	7.1	150	10.4	0.20	0.09

## The Total Solution

The total solution from CooperTools includes not only a complete line of quality industrial tools and accessories but also a professional engineering and product support staff to help customize each tool to specific application requirements. All are as close as a telephone or e-mail.

CooperTools maintains company-owned Service Centers in strategic locations throughout the world, staffed with professional tool repair technicians who use genuine CooperTools parts and who are outfitted with the very latest in testing, calibration and inspection equipment. Each tool that is returned to a customer from one of our Service Centers carries with it a warranty that is CooperTools' assurance that it will perform just like it did when it was purchased new.

Our support personnel are fully capable of helping to diagnose problems and promptly recommend solutions.

Our complete line of tools are carefully designed and built from the finest materials available in order to

provide years of trouble free service. But, as with any piece of equipment, service problems can occur. All tools are designed to be easy to service ... that is, of course, with properly trained personnel.

To facilitate quick repairs, and limit downtime ...

CooperTools conducts training seminars covering all aspects of every tool we make.

## TRAINING

Introductory training seminars are designed to fully acquaint students with the entire line of tools and their fundamental operation. Advanced training seminars, which are often tailored to individual needs, are designed to hone the skills of the experienced student. Hands-on experience, with an emphasis on troubleshooting and repairing, are the focus of this training.

Service literature, product information, brand catalogs and FAQs are also available around the clock on the Web. Just access [www.coopertools.com](http://www.coopertools.com) for the latest information available about any of our products and services.

**Note:** All locations may not service all products. Please contact the nearest Sales & Service Center for the appropriate facility to handle your service requirements.

**CooperTools Is On The Web!**

CooperTools provides a complete resource for power tools on-line. Our website [www.coopertools.com](http://www.coopertools.com) offers product information, service literature, brand catalogs, press releases and more. A dominant source of information, the CooperTools' website is your source for application solutions on-line.

**Making your job easier is our goal!**

You can access service literature anytime. Choose a category such as Assembly Tools or Material Removal Tools from the main menu and then click on the brand you're looking for. You'll be on your way to any current service literature you need, whether it's Dotco, Cleco, Master Power, or any of our power tool brands.

Up-to-date product catalogs are also available online providing you with current information on our broad product line. Even Material Safety Data Sheets (M.S.D.S.) for Safety and Disposal Information are available on our website.

**It's simple!**

Our *Customer Service* section provides you with information such as answers to frequently asked questions or contact phone numbers and addresses for your area of the country. You can learn more about CooperTools in the *About Us* section or browse through the *What's New* information to learn how

CooperTools continues to be your source for solutions.

For even faster searches, you can go direct to a brand site by simply entering the brand name.

Entering [www.dotco-tools.com](http://www.dotco-tools.com) takes you directly to the Dotco brand site.

What is the future of [www.coopertools.com](http://www.coopertools.com)? A dynamic site continuing to focus on your need for up-to-date information on the latest CooperTools' offerings that you can access anytime you need...twenty-four hours a day, seven days a week!

# Order Catalogs & Literature On-Line

## One of the broadest range of tools in the world is at your fingertips!

CooperTools covers a wide range of industrial markets, including aerospace, automotive, foundries, furniture, general industry, metal fabrication, petroleum, power generation, shipbuilding, and transportation. These markets have been served by CooperTools' brands for many decades, by offering our customers solutions and products that meet their demanding productivity requirements.

To receive a product catalog quickly, just go to [www.coopertoolscatalogs.com](http://www.coopertoolscatalogs.com). Select the literature or software you want. Then complete the "Contact Information" form, hit "Submit Request" and your order will be processed immediately. Materials normally arrive within 48 hours.
